

# NEMBO 云蔓

Design by Archirivolto Design

编号：S10

日落时分，海天之间被飞过的海鸥划出一道云蔓，设计师便以此为灵感创作出NEMBO餐桌。餐桌整体干练简洁，只在底部做了细节处理，以镜面香槟金点缀出层次感，实现了在变化中发现新的乐趣，又在不变中延续共有的风格。

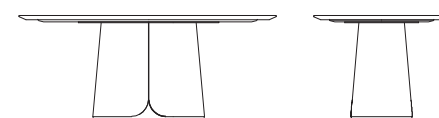

NEMBO is a type of cloud that forms over the sea. Designer creates this piece while imagine a sunset and a seagull with outstretched wings acting as a bridge between the sea and the sky. The form of NEMBO is very clean and precised while the detail on the bottom of the leg become the highlight. It is in titanium plating stainless steel with champagne gold finish to build layers. Together, the bottom is standing out yet bland in.
